

Sprint 1 Review – Team 22

Expectations

1. Completed use-cases covering broad use of the system.

Comments: Good number of use cases covering lot of scenarios

2. Created UML covering the system.

Comments: Good initial system design

3. Version₀ project created in team repository, being worked by team following software dev standards, and deployed to AWS using Jenkins.

Comments: Deployed to AWS but not using Jenkins

4. Demonstrated use of Jira.

Comments: Satisfactory User of Jira

Grade: A-
